

CSCE 156 - Lab 1.0 - Introduction - Worksheet

Names: _____

If you've had prior Java experience you should complete the "PHP Introduction" Lab. If you have not had prior Java experience or feel that you are deficient in Java, you should complete the "Java Introduction" Lab. It is not required to complete both, but you are encouraged to do so.

Java Lab

1. Complete the first activity and demonstrate the webgrader output to a lab instructor
2. Complete the second activity and demonstrate a working version to a lab instructor.
3. Complete the third activity and answer the following:
 - (a) Java was "born" on January 23rd, 1996. How old is Java today and how many days until its anniversary?
 - (b) How many days until your next birthday?

Lab Instructor Signature_____

PHP Lab

1. Complete the first activity and demonstrate the webgrader output to a lab instructor
2. Complete the second activity and demonstrate a working version to a lab instructor.
3. Complete the third activity and answer the following:
